Agenda item: Discuss Findings

Presenter: Enter presenter here

Discussion:

Michael: Recent example of phone services going down. Feb 22nd - AT&T phone service down. Verizon and T-mobile were not affected. -> Don't base all your services and network in one provider.

Tzu Chun: Prevent data leaks, hospitals hold important patient data - HIPAA. Also Ransomware - holding patient's data hostage

Conclusions:

Topics to further research:

- Network security, attacks on major service providers.
- Current state of ransomware and its threat on hospitals.
